As we come out of the pandemic, the streets are deserted and quite. We are seeing about 5% of people on the streets, after the lock down. Many bitcoin investors became super rich. ## Chapter: Chinese Dominance Collapse due to Ali Baba and Jack Ma in Services Business - 4% Market Share

It's pretty obvious that Jack Ma was removed from Ali Baba by Chinese Government, in order to cash out from the stock market. The stock price took a deep dive, and the investors took the money in their pockets. This could be because of what's coming next, in 2021. The plan for unfold shortly. It's unreal to see, how 4% market share that dominate the whole world? What

gave the 4%, let's call it X, the power to change the world. Let's look at the coronavirus for example, which caused major disruption worldwide. The stocks and bonds profited. The debts paid off. China currently rules the 5G vaccinations, so the future belongs to them, in terms of energy grids. However, the humans still have to function, which will eventually come out of the human race. It seems that with the dissolution of Ali Baba, China is no longer going to be able to dominate technology. We might have the version 1 of the 5G mRNA already implemented. It is time to dismantle any associations responsible behind them. This means that the coronavirus should be ending very soon.

## Chapter: Polio Vaccine / Tetanus Booster - Muscle Spasms / Vomiting / Vitamin C - Pakistan under 5 years old - Human Shrinking

With the latest vaccine and booster shots, the medication is deep enough to go deep into the sub-conscious and find relevant memories, as when these vaccine were given, for example Polio Vaccine, when I was under 5 years old. There were muscle spasms, as I recall, as well as human shrinking. Remember the size of Indians in `1600? Remember what they looked like in 1947? When both channels are working, the whole body changes. As epitome, the first human to experience this, it has transformed the rest of the humanity into social outcasts, i.e. teaching wrong and having near death experiences, with medication and living in the brain mRNA. Once gentleman from the military explained, "Bilal, I died. When I went to the heavens, I saw three men, with beards, long hair and robes. They said it wasn't time yet." This is what happens when your karma and dharma is not done - Living for a moment, to take in the blessings. A woman and a baby just walked by, giving a strong glare, to take on that energy and blessing. Because we all know, we live in the light of sages and prayer. Without them, we won't know anything. Compare this to the venture capital demons, knowingly, destroying American startup culture, and sold the country to India, for software and China, for hardware. But what they are lacking, with the virus medication, is understanding.
