

# The Design Book

Subtitle: Grifters

Author: Bilal Ahmed

Copyright: 2025 Bilal Ahmed

Working with many venture capital, some from California and others, although in California but still California dreaming. Recently going to Sandhill Road, Menlo Park and spending time with investors as well as employees quarters, searching for online photos, ran into people on social media and learned about grifters. This book details social engineering algorithms while working with many people, migrating to California. The design compares with 200 old business models, vs AI.
